November 2022

Presidential Words For November 2022

"Long Service" Morning Tea

The Assembled Guests

On Friday 28 October, we hosted a morning tea for long time members to thank them for their past service to and hard work for the Society, and for them to see how the club has evolved over the years. Of course, it was a great opportunity for all to catch up with old mates and swap yarns.

We were privileged to have in attendance some of our first 100 members:

John Linek	Member #3 (a Founding Member)
Peter Wyer	Member #42
Alan Manning	Member #59
Jim Nankervis	Member #84.

Badges recognising years of membership were also presented to:

Peter Wyer	40 years
Don Grimley	30 years
Col Busby	25 years
Theo Haralampou	25 years
Des Scherman	20 years

Theo Haralampou Receives his 25 Year Badge

Thanks to all who attended for making the morning a success. Personally, it was pleasing to see that even though some of our "senior" members aren't able to regularly attend, they are still very interested in our activities.

Machinery Accreditation

Thank you to everyone who sent in their Machinery Accreditation nomination forms. Our panel will now consider your nominations and it is hoped that you will be shortly advised of the outcome.

Special General Meeting

A reminder that a Special General meeting will be held on Tuesday 15 November at 9.30am.

The primary purpose of the meeting is to elect our committee for next year. If you don't normally come in on Tuesday mornings, please consider doing so; a strong attendance is a sign of a strong club.

Mt Coot-tha Exhibition

Our next Exhibition and Sales Event at Mt Coot-tha is on the weekend of 26 & 27 November. There are only a couple of sales tables left, so if you want one, please either put your name on the notice board sheet or let Don McMillan know on 0439 704 622 or at donwcmillan@hotmail.com. A reminder that if you do have a sales table, it is our expectation that you will place some items on our charity table; our charity of choice is the Hummingbird House children's hospice.

As usual, we will also have a table for sale of used non-electrical woodworking tools. Simply tag the tools with your sales code and price. If you don't have a sales code, please contact me and I'll organise one.

We are still short of volunteers, particularly for the café and sales counter. Please either put your name on the notice board lists or contact me. If you are selling and haven't put down a preferred activity/time, please don't be surprised when you are "volunteered".

Bunnings Sausage Sizzle

As I mentioned last month, our next sausage sizzle at Bunnings Mt Gravatt is on Sunday 4 December. We still need some volunteers, particularly for the afternoon shift. If you haven't volunteered so far this year, here's your opportunity!

Tool Theft

I recently advised you of the theft of a battery drill kit and a set of router bits. Unfortunately, we recently discovered that a router has also been stolen (presumably at the same time). The thefts have been reported to the police. I sincerely hope that this is the last time that we experience such totally unacceptable and inexcusable behaviour.

I'll leave you with the ethos that was drummed into me on my first day at work:

"There are no degrees of honesty; you are either honest or dishonest."

Until next month,

John Reed
President

Secretary's Jottings

Meeting held 8 October commencing at 8am

Present: John Reed, Binny Willis, Reg Weber, John Donaldson, Barry Wilson, Alwyn Clark and Brian Creese

Apologies: Bob Kennedy, Mike Dunne, George Wolff, Phil Oostenbroek and Mallick Ramlackhan

1. In the absence of Mike Dunne, John Reed presented the Financial Statement. He outlined the clarification from the Auditor on the issue of recording Grant money as income in the annual Financial Statement. This will now put WSQ into a Category 1 requiring a full audit.
2. John Reed gave details of the arrangement between WSQ and Bank of Queensland to supply cutting/presentation boards. This will be a very welcome additional income stream for WSQ.
3. A Convenors' Meeting is scheduled for 29 October where the new accreditation process will be discussed. The implementation date will 1 January 2023.
4. The Membership Report was presented by Alwyn Clark. Applications for membership were received and accepted from the following: Christina Kastrissios, Paul Harris, Paul Betzien, David Briggs, Keelan Fischer, Ian McKenzie, David Rase and Harold Galway.
5. The Evacuation Plan was reviewed in the light of the Fire Safety Audit.
6. A clean up of the downstairs workshop is to be scheduled.
7. Bob Kennedy is to clarify some issues contained in the Electrical Audit Report.
8. New tools bought with Grant money are in the process of being engraved, painted and sharpened by John Carney.

9. Reg Weber is scheduling a Maintenance Monday for the near future.
10. An additional digital Test and Tag machine with a printer is being purchased from Grant money and will be in use for the January Test & Tag.
11. A Chain Saw course will be organized but subject to a successful Grant application to the AMSA
12. Mt Coot-tha brochures for 2023 to be designed by Lily Karmatz, for distribution at the November Exhibition.
13. Christmas Party will be on Saturday 10 December starting at noon. It will be catered and will be finger food.
14. A morning tea to recognize the long service of a number of members is organized for 28 October.

The meeting concluded at 10.02

Binny Willis
Secretary

Mick Phythian
Convenor

Date Claimers for Demonstrations and Show & Tell Forums

Our Demonstrations on the first Saturday morning of each month are an excellent way to learn new skills and ideas from our talented demonstrators. You will have the opportunity to ask questions of our demonstrators and see a project evolve before your very eyes.

The Show & Tell Forum on the third Saturday morning of each month are designed to give you a couple of weeks to have a go at the project demonstrated the fortnight before and bring your complete or incomplete attempt to receive feedback on your efforts. This is a fabulous learning opportunity, particularly for relatively new members and those wishing to further develop their mastery of skills and techniques.

Date	Demonstration	Show & Tell Forum
5 November	Inside out turning Steve Schuhmacher from Bayside will demonstrate inside out turning. Join Zoom Meeting https://us02web.zoom.us/j/87874958421?pwd=5Y1JYVUJhNXVWQjIQWUg5ZUN6a2xDdz09 Meeting ID: 878 7495 8421 Passcode: 188272 9 am Start	
19 November		A perfect opportunity to bring along any of your turning efforts, particularly if you have had a go at inside out turning

		<p>following Steve's demonstration. The conversations generated at these mornings are always interesting and informative and there are always bits and pieces to pick up and add to your skill set.</p> <p><i>This will be the final Show & Tell for 2022</i></p>
4 December	All things Christmas Ian Symes will delve into his Santa sack of Christmas themed turnings to get you into the spirit of Christmas.	
4 February, 2023	Wavy edged bowl Dan Woodward will start off the 2023 demonstrations with a wavy edged bowl	

Binny Willis
Secretary

Date Claimer – Christmas Party

After a COVID enforced absence, the Christmas Party is back with a new format and time!

When	Saturday 10 December at 12 noon.
Where	WSQ Hall
Meal	A selection of hot and cold finger food and desert
Drinks	Soft drink and water provided. BYO alcohol.
Cost	\$20 per person

A Christmas Hamper raffle will be held. Donations for the hamper can be placed in the basket at the club prior to the party (preferable) or on the day.

An attendance list is on the notice board, or you can let Mike Dunne know on 0410 400 954 or at vpresident@wsqld.org.au.

John Reed
President

Reg's Box Making Group

Members may be aware, WSQ purchased an Incra Positioner and router table, about the same time as Reg Weber established his Box-making Group. The Incra fence, in conjunction with the router table lift system, supports very accurate setup for general routing functions and specialist joinery. The positioner comes with many templates for producing decorative joints that include; box joints, half blind dovetails, through dovetails, double box joints, and double dovetails - in various sizes depending on the dimensions of the router bits used.

Obviously, the router table and Incra jig are great for box making, but they also bring the same level of accuracy to all routing functions. If this router system can assist you in your next project, give it a try. If you would like to build a box, contact Reg Weber on 3820 8046 and get involved.

Harold Wiltshire
WSQ Member

Tarragindi Christmas Market

Harold Wiltshire
WSQ Member

Lathe Maintenance

WSQ provides a biannual preventative maintenance program for all our lathes. The program involves the inspection of the lathes, normally in May and November, by Reg Weber and his team of volunteers. Any matters detected are addressed. This program allows problems to be detected early and repaired before they escalate into major problems. The program appears to be working well.

Reg Weber has advised me that he and his team will conduct the next lathe maintenance exercise on Monday November 7, starting at 8.00am. He is looking for as many members as possible, both experienced volunteers or new/inexperienced members, to come along and get hands-on experience in lathe maintenance under Reg's excellent tuition. If you intend to participate in this session please contact Reg on 3820 8046 and let him know beforehand.

Geoff Holbeck
Editor – Turning Talk

WSQ Training Program

Our current training program will finish in late November.

Our new program will begin on Monday evening 23 January 2023 and Tuesday afternoon 24 January 2023.

If you are interested in either program, you need to contact me or Binny Willis ASAP to book in. The afternoon program is filling quickly, and there are only a couple of spots available in the evening program.

You can contact me on 0413496107 or 1953mick@gmail.com .
Or Binny Willis on 0438 091053

NOTICE

SPECIAL GENERAL MEETING

This is to advise all members that in accordance with the Constitution of the

WOODTURNERS SOCIETY OF QUEENSLAND INC

there will be a

SPECIAL GENERAL MEETING

at 19 Pine Street, Greenslopes

at 9.30 AM

TUESDAY 15 NOVEMBER 2022

AGENDA

1. Confirmation of Minutes of Annual General Meeting held on 15 March 2022
2. Proposed changes to the Constitution
3. Election of the Management Committee for 2023
4. Other Business

Woodturners Society of Queensland Inc

Nomination Form for the Management Committee 2023

Nomination for the position of: (Please tick one only)

President

☐

Vice President

☐

Secretary

☐

Treasurer

☐

Committee Member

☐

I nominate (Member's name) for the above position

Your name: Signed:

Seconded by: Signed:

I, the member nominated for the above position, accept the nomination and understand that the Woodturners Society of Queensland Inc holds Public Liability Insurance cover to the value of \$20,000,000. In agreeing to the nomination, I confirm that I am not ineligible, as outlined in Section 61A of the Associations Incorporation Act 1981, to be elected to the Management Committee.

Signature: Date:

(NB: Nomination must be in the hands of the Secretary on or before 1 November, 2022)

Thread Chasing Demonstration

On the morning of Saturday October 1, 24 members and friends attended WSQ Hall to see a demonstration of the ancient skill of thread chasing by Ken Rays from the Redcliffe and District Woodcraft Society. Unusually, only one member utilised the Zoom option.

Some Sample Projects Ken Brought In

Ken opened the session with some salient observations, i.e.

- Thread chasing is not easy.
- A woodturned item is enhanced by the use of thread chasing.
- It is best done with hard, close-grained timbers. Historically it was used with bone/tusk/ivory before such practices were banned. It is possible to thread chase acrylic blanks. The blank he was planning to use was an unknown species of eucalypt. He expressed some reservations as to whether the blank would be suitable for his purpose.
- Only 2 or 3 threads are required to seal a small box.
- There are two common thread sizes used, i.e., 20 TPI and 16 TPI. Ken reported that he had difficulty with the former, and switched to 16 TPI with success.
- A lathe speed of about 300 RPM is recommended.
- Thread chasing requires specialist tools, i.e., a small toolrest, a recess tool, an armrest tool, matching thread chasers, an "inside" tool.

Ken's Matching Thread Chasers

Small Toolrest

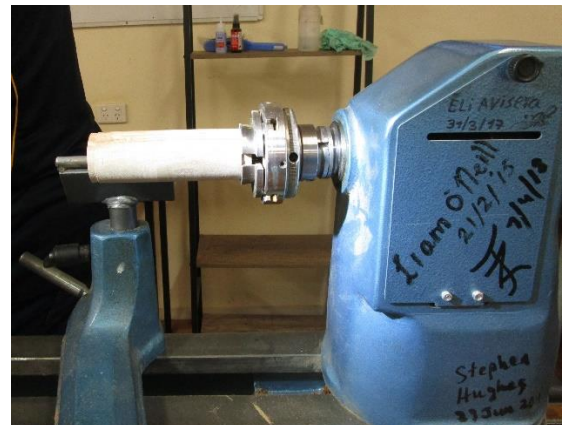

3 Recess Tool Examples

Ken's Armrest Tool

- Hold the thread chasing tools lightly. He demonstrated using a thumb and one finger to hold the tool handles.

The Blank Mounted on the Lathe

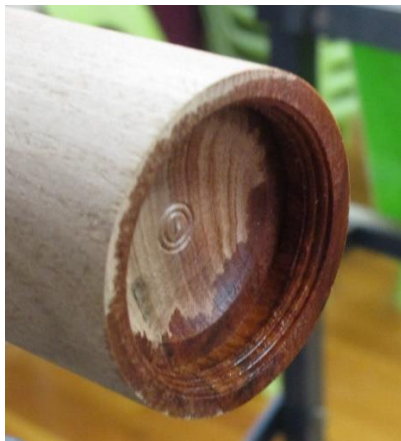

Ken produced a small spigot on the blank at the tailstock end. He used the external thread chasing tool to produce a thread on the spigot. He was concerned about the robustness of the thread, so he applied superglue to the thread to strengthen it. Ken told the audience that in some cases he might repeat the superglue

application up to 6 times. Next, he removed waste from the inside of the blank to make a small pill box project. He used a parting tool to remove a small pill box size object bottom.

Pill Box Bottom Being Removed

He tidied up the outside of the blank to suit the previously removed component, and carefully removed a small amount of waste from the centre. Ken used the recess tool to create a suitable recess at the bottom of the cleared space. Next, he used the internal thread chaser in conjunction with the armrest tool to create the internal thread. Once again, he had to apply superglue to strengthen the thread.

Ken Cutting the Internal Thread

Ken fitted the bottom section to the top section and refined the external surfaces.

Ken parted off the box. Next he created a "push" chuck equivalent with an external thread and refitted the top of the box. He refined the finish. He did not apply finish to the completed box. He would complete the finish in his home workshop.

The audience was very interested in the demonstration. Most of us had never seen these techniques before and were impressed by Ken's skill in their execution. He received a hearty round of applause and was peppered with questions by the audience. Binny Willis (WSQ Secretary) presented Ken with a Certificate of Appreciation for his extremely interesting demonstration.

Editor – Turning Talk

Show & Tell Forum - 15 October 2022

Lots of interesting bits and pieces were discussed at the October Show & Tell. It is always a great opportunity to bring along current turnings, interesting tools and equipment or simply seek advice from experienced members on projects you might have turned or intend to turn. It's not always turned items either, because we often discuss a range of woodcrafts. I have never left a Show & Tell without learning something!

We usually kick off at 9am over a cup of tea or coffee and often finish by 11am. So, mark in the 3rd Saturday of the month in your 2023 calendar and join us. As Brian Underwood said: "I wouldn't miss one of these for quids!"

Doug Underwood brought along a beautiful silky oak box that he made using a Giffkins dovetail jig. It was beautifully crafted, and he was justifiably proud of his workmanship.

Don McMillan is getting ready for the November Exhibition and has begun to make his annual quota of Christmas Bells. They are very popular sellers at Mt Coot-tha, and are absolutely exquisite. Made from Jacaranda and decorated using pyrography and colours, the bells are works of art.

In the spirit of Ken Rays' fabulous October demonstration, Gary Bidgood brought along 3 of his beautiful turned boxes with threaded lids.

Gary reinforced Ken's view that a segmented rim made thread chasing much easier. He also reinforced the idea that the timber needed to be very hard for the thread chasing to be successful. The fine, clean and crisp threads can be seen in two of the boxes in the photo with the segments showing clearly on the middle box.

Neil Howard brought along two beautifully stylized birds that he made from scraps of timber that he came across quite by accident. The small bird is made from Oregon pine, and he has very effectively used the grain direction of the timber to produce a very cute little bird. The curlew is New Guinea rosewood and Neil really captured the action of the bird by using the stainless steel for the legs and beak. Both birds are beautifully finished and amazingly tactile.

Needing to hold his thin walled, natural edge jacaranda bowls while he removed the foot, the ever-resourceful Neil Howard decided that he needed a vacuum chuck – so he made one. His explanation of the process and his use of various bits and pieces made its making sound deceptively simple and made for a very interesting discussion.

Peter Wyer is also preparing for the Mt Coot-tha November Exhibition and is in full production mode with birdhouses to hang as Christmas decorations. While the napkin holder that was on the table came in handy to stand them up for the photo, it doesn't really do them justice and show them at their best. However, it does give a bit of an indication as to their actual size. Peter's work also demonstrates a great use of contrasting timbers and very effective use of the grain.

Introducing Rodney Rooster!

Rodney is the latest in the menagerie of four-footed and feathered characters that Peter Wyer has made. With his very fancy bright red comb attached courtesy of a tenon, Rodney is apparently easy to turn. The secret of ensuring that the beak fits is to make sure you have a drill bit the diameter of the end of the beak that fits into the body.

Look out for Peter's menagerie at Mt Coot-tha on November 26 and 27.

Binny Willis
Secretary

Council Library Displays

John Byrne and I would like to express our appreciation and gratitude to those members who have loaned us some of their wonderful, turned items to use in our library displays for another year. Thank you very much. The library staff we deal with all comment about how much their customers like and comment favourably about our displays.

Month	Northside	Southside
November	Zillmere	Coopers Plains
December	Grange	Mt Gravatt

Geoff Holbeck & John Byrne
Library Display Coordinators

Letters to the Editor

Dear John,

On 11 November 1918, the Western Front fell silent after four years of continuous fighting. With their armies retreating and close to collapse, leaders signed an Armistice, bringing to an end the First World War.

As a mark of respect to those who have died and suffered, Australians pause at 11am on the 11th of November to observe one minute's silence and remember those who died or suffered for Australia's cause in all wars and armed conflicts.

In the weeks leading up to Remembrance Day, RSL's and Veterans Organisations sell badges and materials to wear whilst commemorating the end of the Great War and remembering those who fell in all armed conflicts.

The Holland Park/Mt. Gravatt RSL Sub-branch will again be selling badges and material to fundraise for veteran's supports in the community. They are looking for volunteers to help staff stalls at Mt. Gravatt Plaza and Carindale.

If you can spare an hour or a few between Thursday the 3rd of November and Thursday the 10th of November, contact Sonja the Secretary of the Holland Park/Mt. Gravatt RSL Sub-branch.

Yours sincerely,

Joe Kelly MP
Member for Greenslopes

Zoom Meetings for WSQ Demonstrations

I have set up a recurring Zoom meeting for the WSQ demonstrations for this year.

The details are the same for each of the First Saturday sessions – so the details will remain the same for the Newsletter each month. The meetings are planned for:

Time:
Nov 5, 2022 09:00 AM
Dec 3, 2022 09:00 AM

For the newsletter, the Meeting invite is:
Topic: WSQ Online Demonstration

Join Zoom Meeting

We've been crafting
woodworking tools in
Sheffield, England for
almost 200 years.

Robert Sorby

As one of the world's premier manufacturers of specialist woodworking tools, we are proud to say we still craft every tool right here in Sheffield, England. Our tools are made from the finest raw materials, using traditional methods and with an attention to detail you won't find anywhere else. Each tool is meticulously processed in stages by our craftspeople. Every single tool is cut, ground, polished, hardness tested, sharpened, assembled

and packed for shipping – ultimately crafted to provide a lifetime of use in your workshop. With an extensive range of unique, premium tools, backed by our lifetime warranty, you need look no further for the best tools you can buy. It's our attention to detail and customer first approach that puts Robert Sorby at the top of its class. You can rely on our experience – we know tools.
